- Enforce Anti-Social Behaviour laws
- Moratorium on Home Repossession

## ECONOMY AND ACCOUNTABILITY

- Job Creation and Retraining Programme
- Public Accountability for all Government and Finance Matters
- Fairness of Taxation

# Taking Action - Getting Results

## Message to the voters of Sligo/Strandhill and Sligo West Ward

Dear Constituent,

As we move towards the local elections the people of County Sligo face a worrying future. Gone are the so-called boom years, which in fact did not improve the lives of many of our people. We are now in a deep recession which brings with it the fear of job losses, worries about income, health issues and our children's future.

Bankers and others in positions of trust have betrayed the Irish people and have walked away with golden handshakes while our government has dithered and allowed the wealth created by honest taxpayers to be wasted.

Here in Sligo we see clearly the results of central government mismanagement. Excellent cancer care services at Sligo General Hospital about to be shut down, almost 1200 families on the waiting list for housing, overcrowded classrooms.

Projects such as the recreational development of the Fairgreen and Cleveragh delayed and the Centre

SLIGO COUNTY COUNCIL | SLIGO\STRANDHILL AREA  
SLIGO BOROUGH COUNCIL | WEST WARD AREA

During the past five years Seán MacManus has held over 300 constituency clinics, dealing with thousands of individual cases.

Seán MacManus has worked with dozens of community, residents and voluntary groups in the West Ward and Sligo/Strandhill area to assist with delivery of needed facilities and services.

Every Vote Counts: Boundary changes have removed 1300 people from the West Ward including 150 of my supporters. To hold this seat I need every possible No.1 vote.

- **Annual programme of works to local roads in Strandhill, Ransboro, Kilmacowen and Carraroe.**
- **Urgent provision of Cumeen and Carraroe sewage schemes and extension of Strandhill scheme.**
- **Re-open O'Connell Street as proposed by Sinn Fein to Sligo Borough Council.**
- **No waste of public money on un-wanted projects such as footbridge to private development**

Block development still dragging on.

In tough times we need someone who will stand up for peoples interests. Over the years on both Sligo County Council and Sligo Borough Council I have always worked to do

my best for local people and their communities.

My record is one of looking for better services for everyone, in particular those less well off. I have never been afraid to speak up against injustice and have never stood for

just one sector of society. I have the experience of years of public representation, of twice being Mayor of Sligo, of having made thousands of representations for local people.

To those who have supported me

before I say thank you and ask for your continued No. 1 support. To new voters and to those who may not have been able to give me their first preference previously I respectfully ask that you consider me worthy of the honour of representing you on both Sligo County

Council and Sligo Borough Council at this election. In return I give you my solemn promise that I will continue to work on your behalf to help our area to face the challenges of the future.

Seán MacManus
